

The 10-Minute Opportunity Vetting Checklist

Run this on any "make money online" offer before you spend a cent. Answer each honestly.

EDUCATIONAL TOOL — NOT FINANCIAL OR LEGAL ADVICE. A "Yes" on a flag means proceed with caution and verify independently; it is not proof of fraud. When in doubt, walk away and research further.

THE 5 CHECKS

#	RED-FLAG QUESTION (Yes = warning sign)	YOUR ANSWER
1	Money flow: Do you have to PAY to join before any customer has paid you?	☐ Yes ☐ No
2	Income promise: Is a specific, effortless income "promised" (e.g. "\$10k/mo, passive")?	☐ Yes ☐ No
3	Product & customer: Is the only real paying customer... you? (No clear product or buyer.)	☐ Yes ☐ No
4	Reputation: Do searches for the name + "complaint" / "refund" / "FTC" raise concerns?	☐ Yes ☐ No
5	Pressure: Is there urgency ("spots left", "price rises tonight") pushing a fast yes?	☐ Yes ☐ No

Count your "Yes" answers: _____ 0 = Low risk (still verify) • 1 = Caution • 2+ = High risk, likely walk away

THE 10-MINUTE RULE

- Before committing money, spend 10 honest minutes on the 5 checks above.
- **The key search:** type the company name + "FTC" + "complaint" + "scam" and read the independent results.
- If you're still unsure after checking, treat that as a "not yet." Real opportunities are still there tomorrow.
- Then redirect protected money toward something real — a skill, a tool you build, or a low-fee index fund.
